SUMMARY

Full-Stack Web Developer (MERN Stack) and B.Tech Computer Science student at DKTE Society's Textile and Engineering Institute. Delivered two production-grade web applications using MongoDB, Express.js, React, and Node.js with JWT authentication, REST API integration, and cloud deployment. Actively applies skills in data structures, algorithms, and machine learning to real-world projects.

EDUCATION

B.Tech, Computer Science & Engineering DKTE Society's Textile and Engineering Institute, Ichalkaranji | 2027 | CGPA: 7.97 / 10.0

HSC (12th Grade) Shraddha Institute of Career Development | 2023 | 70.17%

SSC (10th Grade) D.K.T.E. Marathi Medium High School, Narayan Mala | 2021 | 86%

SKILLS

- Programming Languages: Java, JavaScript, Python
- Web Technologies: HTML, CSS, React.js, Node.js, Express.js
- Database: MySQL, MongoDB
- Tools: Git, GitHub, Visual Studio Code, Postman, Eclipse, Anaconda Navigator, Jupyter Notebook
- Concepts: REST APIs, JWT Authentication, Role-Based Access Control, Data Structures & Algorithms

SOFT SKILLS :-

- Problem-Solving Ability
- Time Management
- Critical Thinking
- Collaborative team contributor
- Adaptable self-learner with a track record of independently building

CERTIFICATION

- MERN Internship (Grade A) — SunBeam Infotech, Dec 2025
- Generative AI Intensive — Kaggle × Google, Nov 2025
- MERN Full Stack Virtual Internship — EduSkills & AICTE, Jan–Mar 2026
- AWS Academy Cloud Foundations & Architecting — AWS Academy & EduSkills, Dec 2025

PROJECTS

Project 1 : Eproductsplatform | MERN Stack

Built a full-stack e-commerce platform with JWT authentication, dynamic cart, and secure multi-user session management. Developed an admin dashboard with role-based access control for product and order management via REST API. Designed a modular React component architecture improving maintainability across product and order management views.

Project 2 : E-Learn Platform | Full Stack

Developed a full-stack e-learning system with course creation, student enrollment, and role-based secure authentication. Deployed across Vercel, Render, and Railway with RESTful API integration ensuring seamless front-to-back communication. Designed a MySQL schema supporting multi-course enrollment, instructor management, and student records with data integrity.
